AEROMOTIVE RESEARCH

Lowell Bennett – Slinger Multiple Feature Winner
Lefthander Chassis – Super Late Model Division
Wegner LS2 Race Engine – SynMax Racing Products

AEROMOTIVE RESEARCH

Lowell Bennett – Slinger 2009 Season Champion
Lefthander Chassis – Super Late Model Division
Wegner LS2 Race Engine – SynMax Racing Products

AEROMOTIVE RESEARCH

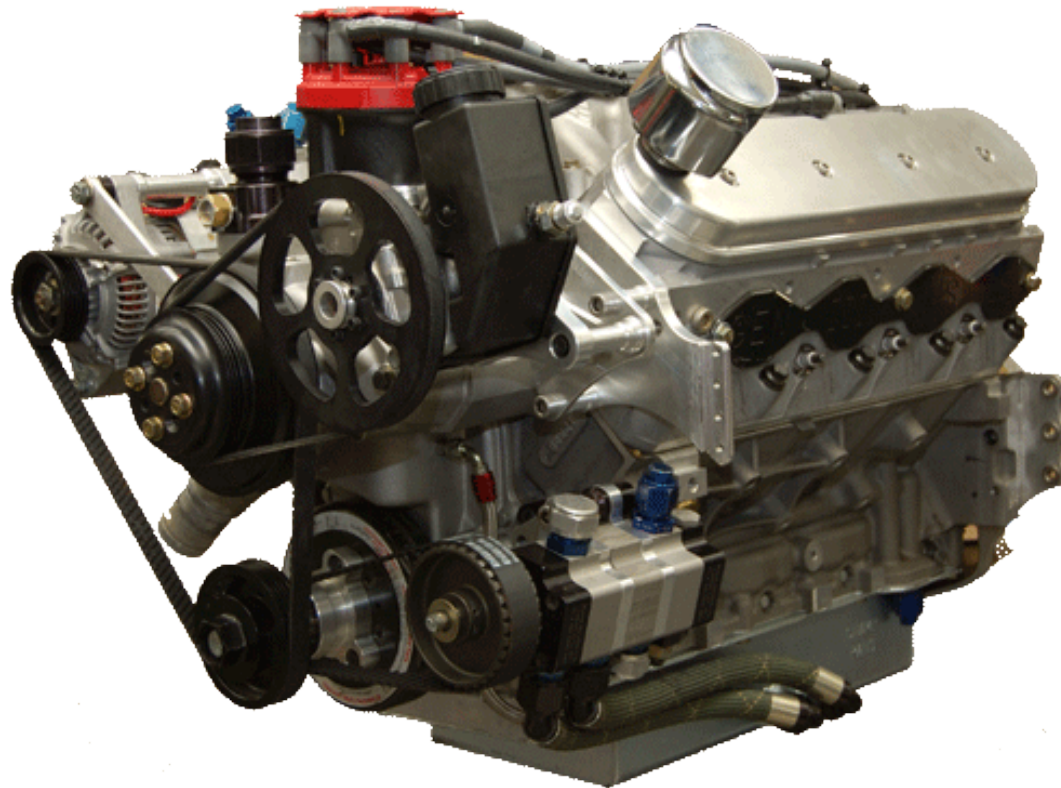

***Aeromotive Research and Development Group
through its chemical and mechanical engineering partners is becoming
one the national leaders in the application of
Aerospace Nano -Technology & Products for use within
premium automotive & commercial lubricants***

***This Presentation Shows
SynMax Lubricant - Performance on the Following:***

***WEGNER LS 2 – 1 year of super late model event racing.
Wear on piston, piston skirt & connecting rod bearing.
Cleanliness performance piston, head & motor etc.***

AEROMOTIVE RESEARCH

AEROMOTIVE RESEARCH

LS2 Rod Bearing Wear 1000 Miles - Racing.

AEROMOTIVE RESEARCH

LS2 JE Piston Skirt Wear 1000 Miles - Racing.

AEROMOTIVE RESEARCH

LS2 JE Piston Skirt Wear 1000 Miles - Racing.

AEROMOTIVE RESEARCH

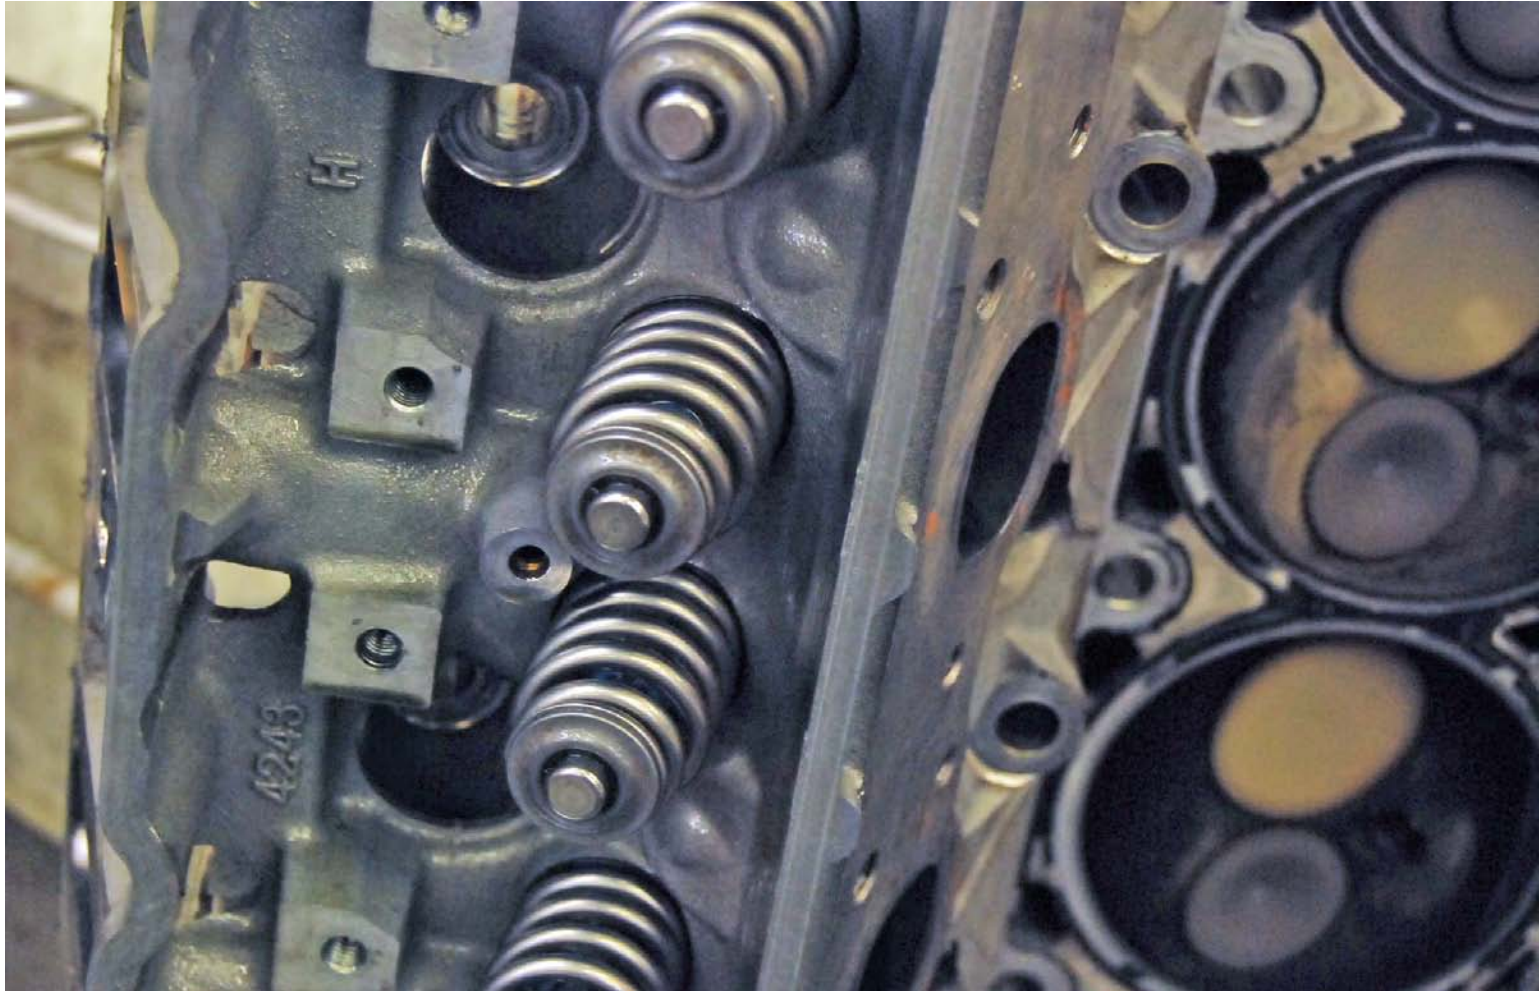

**LS2 JE Piston
Cleanliness
1000 Miles - Racing.**

AEROMOTIVE RESEARCH

LS2 JE Piston Cleanliness 1000 Miles - Racing.

AEROMOTIVE RESEARCH

LS2 Motor / Head Cleanliness 1000 Miles - Racing.

AEROMOTIVE RESEARCH

LS2 Motor / Pan Cleanliness 1000 Miles - Racing.

AEROMOTIVE RESEARCH

**LS2 Wegner Engine Rebuild Results after 1 year or
1000 + Short Track Racing Miles
8200 RPM's @ 600+ HP**

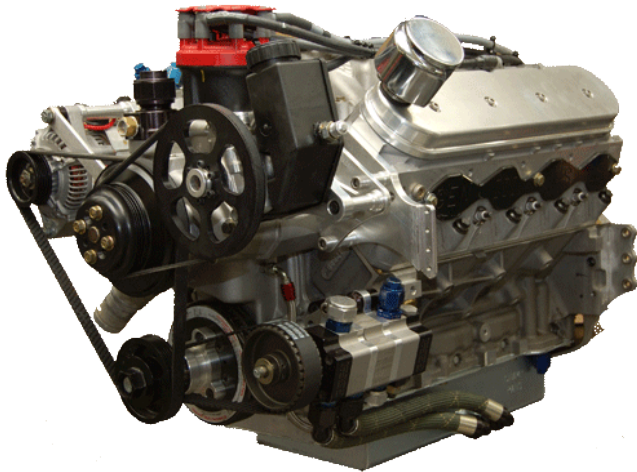

- Motor was clean with no varnish upon inspection
 - Rod, Crank, Cam Bearings etc. still in very good to ...excellent shape (replaced per rebuild).
 - Piston Rings still held good (replaced per rebuild)
 - Valve Springs (replaced per rebuild).
 - Piston skirt wear very good and minimal
 - Cylinder wall wear very good and minimal
 - Cam Shaft and Roller Lifters wear very good.
 - Did not require any hard parts replaced
- Final Rebuild Cost – standard minimum R & R cost**

AEROMOTIVE RESEARCH

SUMMARY:

Lowell Bennett is a multi division winning champion and knows the balance between cost vs. performance

This presentation showed how the Aerospace Advantages through advanced nano-technology formulated into SynMax Performance Lubricants increased component / life cycle durability within the Wegner LS2 Super Late Model Motor.
